Molex PowerCAT 6 unshielded patchpanel 24 ports Datagate

The PowerCat 6 patchpanel features the shuttered DataGate™ connector. This connector provides a unique spring loaded shutter that not only protects it from dust and contaminates, but it also ejects improperly seated patch cords. This panel is supplied with a rear cable management tray for cable strain relief and neat cable dressing. Port numbering is provided on the front and rear of the panel and individual ports may be colour coded using connector icon labels for site specific network administration.

- DataGate? connectors features a unique spring loaded shutter that protects against dust.
- Integral cable management shelf ensure bend radius compliance
- EIA 568A/B colour coded

Molex PowerCAT 6A shielded patchpanel 24 ports Datagate

The PowerCat 6A Shielded Patch Panel features the unique DataGate™ Shielded connector. This shielded connector offers superior alien crosstalk suppression, excellent insertion loss, and provides enhanced electromagnetic interference (EMI) protection by utilising robust die-cast zinc alloy connector body housing. This shielded connector also features a unique spring loaded shutter that not only protects against dust and contaminates, but also eliminates the risk of improperly seated patch cords. The shielded connector is dual colour coded for either 568A or 568B wiring schedules. The DataGate PowerCat 6A Shielded connector is specifically developed for high-speed data transmission; designed to exceed the highest electrical performance standards in the industry. The DataGate PowerCat 6A Shielded connector is backwards compatible with Shielded C6 and C5e systems.

Molex PowerCAT 6A STP Datagate jack

The product offers superior alien crosstalk suppression, excellent insertion loss protection and enhanced electromagnetic interference (EMI) protection. Protection is provided by utilising a robust die-cast zinc alloy connector body housing. This shielded jack features a unique spring-loaded shutter that not only protects it from dust and contaminants, but the ingenious spring-loaded design also ejects improperly seated patch cords. The product is dual colour coded for either 568A or 568B wiring schedules and is backwards compatible with Shielded C6 and C5e systems. Also available in side entry variation, ideal for use in work area outlet applications with limited back box space.

- IDC compatible with 110 & Krone tool.
- Universal labels color-coded for T568A and T568B wiring schemes.
- Fitting 1U 24 port High Density Datagate panel.

Twisted Pair cable

Molex PowerCAT 7 S/FTP Solid cable

The Molex PowerCat 7 S/FTP Cable is specifically designed to support high speed data network applications such as 10-Gigabit Ethernet (10GBASE-T). The cable is constructed of 4 screened pairs and a drain wire. This cable minimises alien crosstalk, provides excellent signal isolation and provides superior electromagnetic interference (EMI) protection.

- U/FTP LSZH cable
- Supports high speed data network applications such as 10-Gigabit Ethernet (10GBASE-T)
- Enhanced performance individually screened 4 pair S/FTP LSZH cable.
- Minimises alien crosstalk, provides excellent signal isolation and provides superior electromagnetic (EMI) protection.
- Transmission C7 in a 1-600Mhz range as per IEC 61156-5

Fibre panels

Molex adapter plate 12 Fiber

12 Fibre Adapter Plates fit directly into most Molex fibre management enclosures. This simple design requires no tooling as the plates install with a simple snap rivet, making installation and changes simple.

- Suitable for MX8120
- Available in singlemode and multimode

Molex Modlink MTP cassettes for 12 fibers

ModLink Cassettes provide a cost-effective, quick and easy fibre system, for backbone and to-the-desk applications. 12 Port ModLink Cassettes provide premium factory-controlled optical performance, enabling flexible system configuration and fast, economical installation. Simply plug the cable into the rear of the unit and the link is operational - an excellent solution for fast-track installations.

- MTP® US Conec patented high quality connector
- Low Loss Laser Optimized OM3 & OM4: 0.50 dB/Cassette
- Test results included with every cassette
- Suitable for MX8120

Molex Modular splice cassettes

Molex's Modular Splice Cassette is an excellent way of managing vulnerable fibre optics, protecting them from dust and damage as a result of routine maintenance. The Cassette is available in a number of pre-loaded configurations.

- Suitable for MX8120
- High density, up to 24 fibres per cassette
- Integrated cable management, prevents damage
- Included splice protectors and holders

Molex Fiber enclosure

The 601 fibre series wall mount enclosure is a compact unit for optical fibre. The unit is made of white rugged plastic with a low profile design that provides sufficient storage room for the fibre service loop making installation easy whilst ensuring the proper internal fiber management.

Compatible for splicing and direct terminations the unit can accept up to 8 fusion splice protectors or mechanical splices. The 601 enclosure is supplied with an accessory kit which includes cable ties, labelling and mounting kits.

- Available in Single and multimode fiber versions.

Tooling and test equipment

Molex Termination tool

The Molex DataGate 4 Pair Termination Tool is a robust and reliable product that offers faultless gas-tight terminations of all four pairs simultaneously. The tool frame is manufactured from high grade steel with die-cast termination heads. Designed specifically for use with Molex DataGate and Keystone style jacks, the 4 Pair Termination Tool Frame is supplied unloaded into which either the UTP Termination Head (for termination of the UTP DataGate and Keystone jacks) or the C6A Termination Head (for termination of the C6A shielded DataGate jacks) is fitted.

Molex SLT3S Tester

The SLT3™ Tester is a rugged, lightweight product designed to verify the integrity of 1, 2, 3, and 4 pair UTP channels. Incorporating a unique 3-in-1 design, this tester features built-in modular jacks for USOC, EIA 568A and 568B wiring sequences. Simply connect the master and slave unit to each end of the cable under test, and the SLT3 automatically verifies correct cable sequence, as well as open and short circuits.

- Innovative 3-in-1 design features modular jacks for testing USOC, EIA 568A and 568B cabling systems.
- Accurately verifies the continuity and sequence of 1, 2, 3 and 4 pair UTP and FTP channels.
- Continuously-sequencing LED display provides a diagnostic readout that immediately detects shorts, opens, reversals and mis-wires at a glance

Molex Datagate 4 pair termination tool

The Molex DataGate 4 Pair Termination Tool is a robust, reliable product that offers fast, fault-less gas-tight termination of all four pairs of solid cable simultaneously. The Termination Tool Frame is manufactured of high grade steel and is used with die-cast Termination Heads.

- Designed specifically for Molex DataGate™ Keystone and MOD-Clip™ Jacks
- Reduces installation time compared with traditional single wire termination.
- Cables are accurately seated and neatly trimmed with one squeeze of the handles
