Temperature sensor

Temperature sensor with cable and RJ11 connector for LAN Controller. Sensor works in digital standard of 1wire bus which allow to connect lot of sensor parallel.

1wire DS18B20 sensor with cable

Temperature sensor with cable and RJ11 connector for LAN Controller. Sensor works in digital standard of 1wire bus which allow to connect lot of sensor parallel.

TECHNICAL DATA:

Temperature range:	-50* do +125* C
Accuracy:	0.5 degrees.
Cable length:	165cm

Tinycontrol.eu

Idea of this website is design and develop micorprocessor projects for remote sensors and remote controll in IP networks.
It's idea of Internet of Things.
