

Sensor- door open / reed sensor with 15cm cable

The magnetic contacts are an important element of the security system when connecting to a remote extension Lankontrolera allowing also for the protection of doors, windows and other moving parts.

Sensor- door open / reed sensor with 15cm cable

The magnetic contacts are an important element of the security system when connecting to a remote extension Lankontrolera allowing also for the protection of doors, windows and

other moving parts.

Tinycontrol.eu

Idea of this website is design and develop micorprocessor projects for remote sensors and remote controll in IP networks.
It's idea of Internet of Things.
