

## USB Charger, 2-port, 2.4A, 12W, Smart IC

Item No. AC2115

### DESCRIPTION

- Charge 2 smartphones at the same time with only one charger
- Smart IC charging system: automatic self-output power adjustment
- Compact design: easy to take along
- Charging stops automatically when battery is full

- With over temperature protection, over voltage protection, over current protection and short circuit protection
- Worldwide applicable: 100-240V AC input
- Also suitable for charging your tablet, action camera, power bank and other USB powered devices

Charge up to two USB devices at the same time with the AC2115 2-Port USB Charger. The Smart IC charging system distributes the available current between the connected devices. Besides that, the smart charger recognises the required current per device. Your tablet and smartphone will be charged with just the right amount of power. The charging will stop when the device is fully charged. The AC2115 is equipped with over temperature protection, over voltage protection, over current protection and short circuit protection.

## SPECIFICATIONS

Product category	USB Chargers
Max. output power	12 W
Output voltage / amperage	5.0V / 2.4A
Input voltage	100 - 240 V AC
Number of USB ports	2
Connections on charger	USB A female (x2)
Colour	White
Input connector	CEE 7/16 (Euro) male
Warranty (years)	5
EAN code	8716065488067
