USB-C or USB-A Dual Monitor Docking Station

Item No.   AC7049

DESCRIPTION

Docking Station | USB-C and USB-A | 2x HDMI | 3x USB-A 3.2 Gen 1 | 4x USB-A 2.0 | Gigabit Ethernet | 3.5mm headphone and microphone jack

- Dual Monitor docking station for connecting up to 2 full HD screens (max. 2048x1152) to your laptop via the HDMI port by only using one USB-C/A cable
- Add a Gigabit LAN port, microphone and headphones connections and 6 extra USB ports to your laptop
- DisplayLink® technology: extended monitor view on MacOS and Windows computers with USB-C or USB-A
- Vertical placement for saving space on your desk and better access to all connections
- USB-C/A 3.2 Gen1 to USB-B connection cable, stand and power adapter included
- Suitable for all laptops with a USB 3.2 Gen1 (USB 3.0) port

The AC7049 Dual Monitor Docking Station turns your laptop in a complete working station. All peripherals, e.g. two HDMI screens, a mouse, keyboard and networking cable can be connected to your laptop by using only one USB-C/A connection cable. The docking station adds a Gigabit LAN port, 6 extra USB ports, a microphone and headphones connection to your laptop. The integrated DisplayLink® technology ensures extended monitor view on both Windows and Apple computers. You will save space on your desk by the vertical placement of the Docking Station. A stand, USB-C/A 3.2 Gen1 connection cable and power adapter are included.

Turn your laptop into a complete working station with only one USB-C/A cable
The AC7049 lets you connect up to 2 full HD screens (max. resolution 2048x1152) to your laptop by using the two HDMI ports. The Docking Station has a Gigabit LAN networking port, a microphone and headphones connection. The dock extends your laptop with 6 additional USB ports: two USB-A 3.2 Gen1 ports on the front and four USB-A 2.0 ports on the rear.

DisplayLink® technology: extended monitor view on MacOS and Windows computers
The docking station includes the DisplayLink® technology. This means that you can extend your desktop with two other screens. In total you will have 3 different monitor views. This technology works with any computer that supports USB-C or USB-A 3.0 (or higher). Ideal for small offices or home offices.

Vertical placement for saving space on your desk
Place the AC7049 Docking Station vertical on your desk and save space. Besides the space-saving feature, all connections are easy accessible. When you prefer a horizontal placement, this is possible as well.

Suitable for laptops with a USB-C or USB-A USB 3.2 Gen1 port
The AC7049 Dual Monitor Docking Station can be used with all laptops that have a USB 3.2 Gen1 port. A USB-C/A connection cable and power supply (to power the docking station) are included.
