

- · Ergonomic lightweight aluminium design
- · Relieves strain in back, neck and shoulders
- · Non-slip rubber pads to prevent the laptop from sliding
- Maximum air flow for better heat dissipation
- Suitable for laptops up to 15.6"
- Viewing angle: 13°
- Storage space for a keyboard and other peripherals
- Mostly used by HP laptops

Use the AC8130 Aluminium Laptop Stand for working more ergonomically on your laptop. The solid stand has non-slip rubber pads that keep the laptop in place. The stand has a viewing angle of 13° and is suitable for laptops up to 15.6". The open structure ensures maximum air flow for better heat dissipation. The stand includes space underneath the laptop for storing a keyboard, documents or other peripherals.

Ergonomic: relieves strain in back, neck and shoulders

Raise your laptop to a comfortable angle (13°) with the AC8130 Aluminium Laptop Stand. It relieves strain in your neck, back and shoulders.

Suitable for laptops up to 15.6"

The aluminium laptop stand is suitable for laptops up to 15.6". The non-slip rubber pads keep the laptop in place. The space underneath the laptop can be used for storing a keyboard, documents and other peripherals.

Open design for maximum air flow

The open structure of the stand ensures maximum air flow that leads to better heat dissipation.
