

The Atlona AT-UHD-EX-100CE-KIT is an HDBaseT™ transmitter/receiver kit for HDMI transmission up to 328 feet (100 meters) over category cable with Ethernet pass through, RS-232 and IR control, plus Power over Ethernet. This extender kit transmits video signals up to 4K/UHD @ 60Hz with embedded multi-channel audio and remote 48V power for the receiver. Additionally, the kit extends Ethernet, RS-232, and 12 volt-based IR control commands. The kit is HDCP 2.2 compliant and supports EDID communication. Both transmitter and receiver feature quarter rack width metal enclosures for easy rack mounting with rear panel I/O ports for uncluttered wire management.

The AT-UHD-EX-100CE-KIT provides integrator-friendly features including: IEEE standards-based PoE transmission for safety and compatibility; HDCP 2.2 compliant for meeting the latest copy protection requirements; rack-mountable form factor for accommodating four transmitters in a single 1U rack tray; power chaining for powering multiple devices from one power supply; and front mounted USB port for easy firmware updates.

The AT-UHD-EX-100CE-KIT is ideal for use in residential or commercial point to point applications that require greater HDBaseT signal transmission distance than the UHD-EX-70C can support. As a transmitter/receiver pair, the kit can be used with the H2H matrix switcher and HDDA distribution amplifier series and third party control systems for long distance AV signal and control extension with PoE capability. On its own, the AT UHD-EX-100CE-RX receiver is compatible with the UHD-PRO3 Series, AT-UHD-CLSO-601 and AT-UHD-SW-52ED.
