

FEATURES AND SPECIFICATIONS

Optical Fibre Adapter Plates

Features and Benefits

Molex's Optical Fibre Adapter Plates are modular platform that is compatible with a various Molex Enclosures and Fibre Splicing Systems. Adapter density ranges from 6 fibres to 24 fibre per plate, allowing for 1U 96 fibre density. Available in a variety of connectors and performance levels, the Molex Plates require no tools for installation.

- From 6 Fibre to 24 Fibre Density – Allows you to reuse your existing enclosure and increase your fibre count to meet demand
- Greater Asset Utilisation – Easily Expandable – allows multiple generational uses of the enclosure for the same rack area. Our blank plates and a small profile plate ensures you only pay for the adapters you need.
- Snap Rivets – allows for easy installation and removal
- Upgradeable - Can be used with Molex's standard OF splicing options or with our new Modular Splice Cassette
- 100% Factory Tested – Guaranteed performance

Commercial Standards

ISO/IEC 11801, ANSI/TIA/EIA 568.B.3-2000, ANSI/TIA/EIA-492, TELECORDIA GR-409, ICEA-596

Technical Information

Mechanical Characteristics

Dimensions: 86 x 33mm
Plate Material: Black Electroplate or Thermoplastic

Multiple Formats available - Simplex, Duplex, Single Mode, Multi Mode and a variety of connector options

New Modular Splice Cassette - Superior Fibre Management and Protection

ORDERING INFORMATION

Order No.	SAP No.	Description
