24 FIBER UNIVERSAL SPLICE TRAY WITH CABLE MANAGEMENT FOR 1U MULTI-FUNCTION FIBER ENCLOSURE

The 24 Fibre Splice Tray with integrated fiber management and external fiber management and pivotal splice holding arrangements, allows the installation of 24 optical fibers without the need to fit additional fiber management. This makes it ideal for fitting into small wall boxes and enclosures or for any installation requiring fibre. The tray is capable of holding up to 24 x 900µm fibers with heat shrink splice protectors.

PART NO: AFR-00470

Features & Benefits

External fiber cable management allows for easy storage of excess fiber

Allows for multi-directional routing of entry and exit fibers, allowing the tray to be mounted vertically or horizontally

Maintains 30mm bend radius, ideal for 250µm or 900µm fiber

Internal cable management allowsfor multiple fiber routing options including cross over

Pivoting splice holders allow uninterrupted control of fiber during splicing

Built-in fibre pick can be used to withdraw individual fibers

Will hold up to 24 heat shrink style splice protectors

Tray is stackable with supplied tray hinge, which also allows for easy access

Tray comes with a clip in transparent lid Cable ties point to secure fiber on entry and exit

Mountable via centre hole, DIN style

Technical Info

Material: ABS polymer

Fiber Termination Options: Direct, Fusion Splice, Mechanical Splice, Pre-Terminated MTP
