24 Port Keystone Patch Panel, Unloaded, Shielded, 19" 1U - with Cable Management Bar

Features and Benefits

The Shielded 1U 24 Port Unloaded Keystone Patch Panel is shipped unloaded and can be configured to provide the exact number of modular ports. The Patch Panel is made of steel sheet and can accept 24 shielded and unshielded Keystone modules. The Cable management bar is also made of steel and equipped with an earth screw. The front of the panel is equipped with a transparent holder for port labelling. Keystone jacks (sold separately) can be terminated to the cable and then snapped into the patch panel.

- Available in 1U 24 Port straight version
- Easy snap in UTP and FTP Keystone Jacks (sold separately)
- Modularity provides installation flexibility
- Front port labeling
- Individually removable patch panel ports
- Removable cable management shelf ensures bend radius compliance
- Global hardware kit included
- RoHS compliance

Reference Information
