

High density extractor for Polarity Twist™ patch cables, 24 pieces

N.º de artículo RL8234

DESCRIPCIÓN

- HD extractor for Polarity Twist™ patch cables in a high density patch panel
- Easily extract a Polarity Twist™ patch cable when stacked
- Content: 24 pieces

When using Polarity Twist™ cables in a high density patch panel, it is more challenging to extract the cable. Use the RL8234 Extractor instead of the original clip. This extractor makes it easier to remove the cable from a high density patch panel.

The Polarity Twist™ patch cable is a cable with an innovative connection that allows you to connect multiple cables to a single port.

How can we help you?

seconds. Save installation time and space with this 60% thinner patch cable (compared to standard patch cables). The small diameter of this cable makes the Polarity Twist™ cables ideal for use in high density applications.
